

1

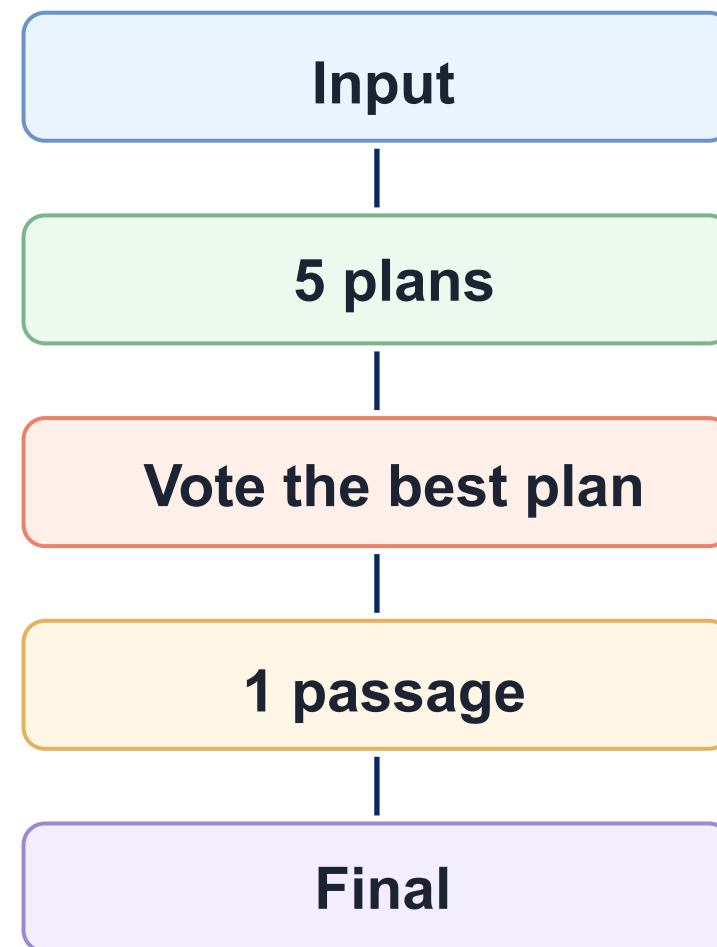

Selection-mechanism extension

plan_only_cot

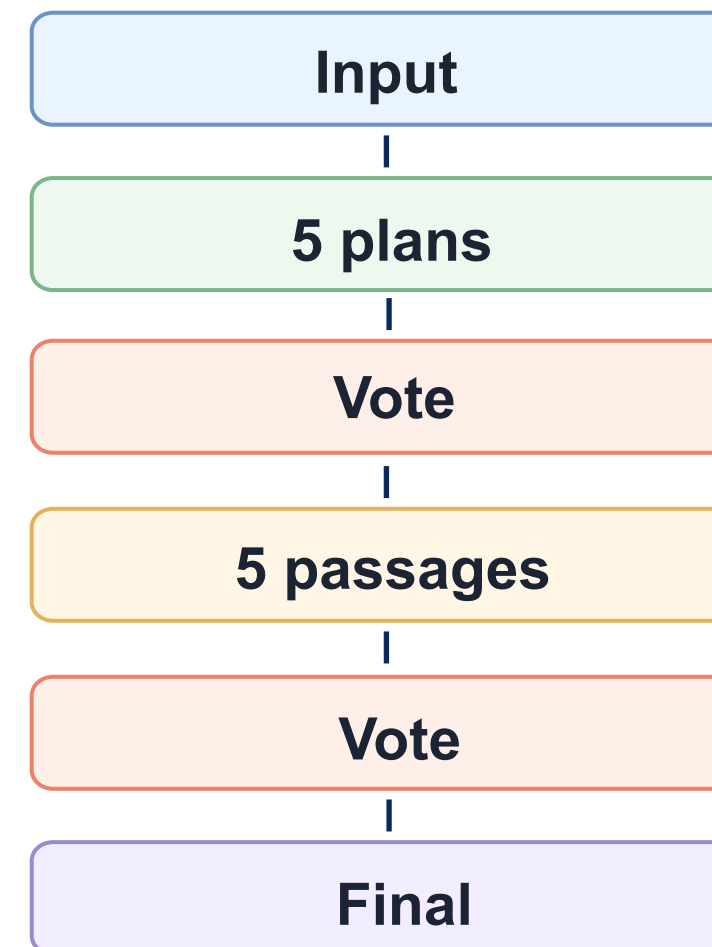

What changes?
Planning only

plan_vote

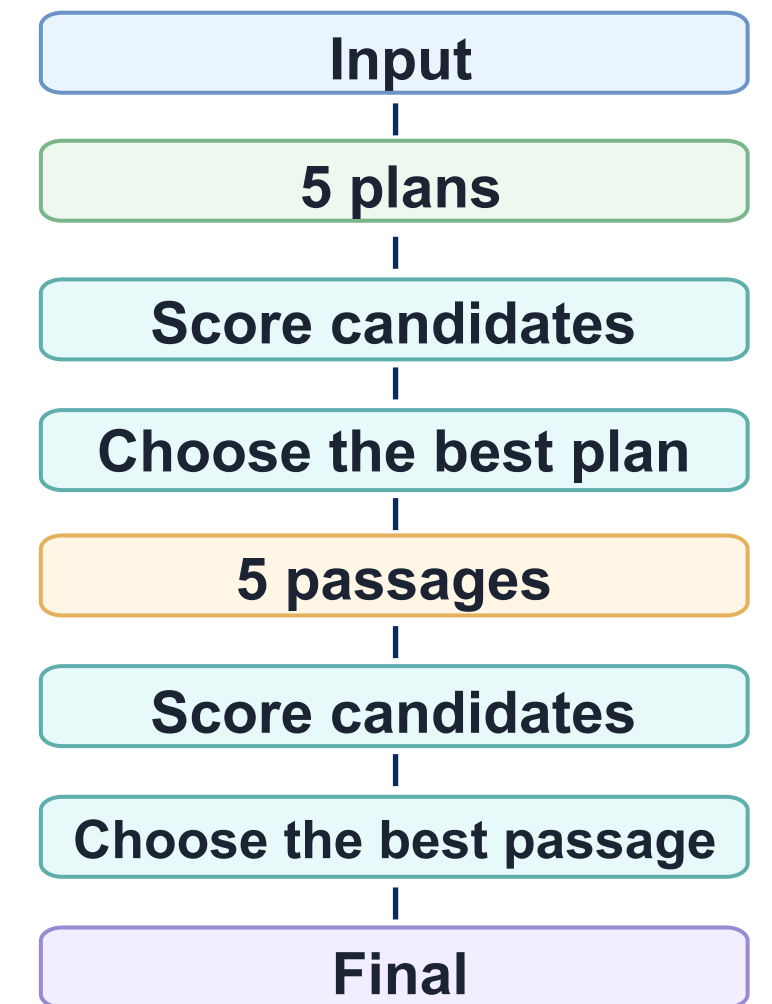

What changes?
Selection at plan stage only

ToT

What changes?
Selection at plan and passage stages

tot_score_select

What changes?
Independent scoring instead of voting

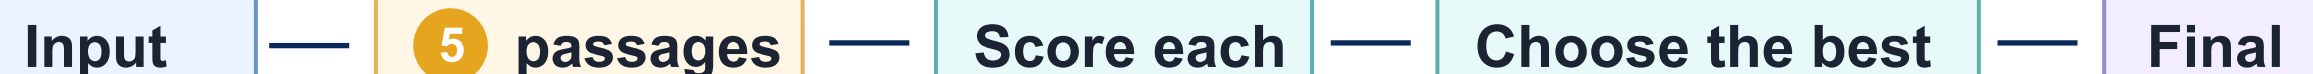

Question: Is ToT helped more by planning, voting, or score-based candidate selection?

2

Sampling / control results

Best of K_IO:

vs

Self-consistency with_CoT:

vs

ToT

vs

tot_score_select

Question: Are gains due to tree-structured reasoning, or simply sampling multiple candidates and selecting the best?
